Sagar Vishwakarma

Machine Learning Intern

+91- 8471023958 | sagar.25004269@kiet.edu | LinkedIn | LeetCode

Professional Summary

Computer Science and Engineering (AI/ML) undergraduate at KIET Deemed to be University with a strong foundation in Machine Learning, Python, Data Science, and Data Structures and Algorithms. Hands-on experience in data preprocessing, exploratory data analysis, feature engineering, regression, classification, and model evaluation. Strong problem-solving skills with practical project experience and participation in Smart India Hackathon 2026. Seeking a Machine Learning Internship to apply ML knowledge to real-world problems.

Education

KIET Deemed to be University, Ghaziabad **2025 – 2029**
Bachelor of Technology in Computer Science and Engineering (AI/ML) *CGPA: 7.56 / 10*

Technical Skills

Programming Languages: Python, C++, C, SQL
Machine Learning: Supervised Learning, Regression, Classification, Feature Engineering, Model Evaluation, Cross-Validation, Regularization, Gradient Descent
ML Algorithms: Linear Regression, Logistic Regression, Decision Trees, Random Forest, Naive Bayes
Data Science: Pandas, NumPy, Matplotlib, Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Data Visualization
Core CS: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Git, GitHub

Projects

House Price Prediction | *Python, Pandas, NumPy, Machine Learning* | **Live Demo** **2026**

- Performed Exploratory Data Analysis (EDA) to identify patterns, correlations, distributions, and relationships between property features and house prices.
- Cleaned and preprocessed data by handling missing values, duplicate records, and categorical variables for machine learning.
- Applied feature engineering and prepared training data for regression model development.
- Built and evaluated machine learning regression models for predicting house prices.

Kasaudhan Collection | *HTML, CSS, JavaScript* | **Live Demo** **2026**

- Developed a responsive e-commerce website for a local client using HTML, CSS, and JavaScript.
- Implemented product browsing, size selection, and WhatsApp-based customer ordering functionality.

Aryan Sofa Maker | *HTML, CSS, JavaScript* | **Live Demo** **2026**

- Designed and developed a responsive business website to showcase sofa products and services using modern HTML, CSS, and JavaScript.
- Focused on responsive UI, product presentation, and user-friendly navigation for potential customers.

Relevant Coursework

Machine Learning, Data Structures and Algorithms, Probability and Statistics, Database Management Systems, Object-Oriented Programming, Python Programming

Achievements & Activities

- Participated in **Smart India Hackathon (SIH) 2026** and qualified at the **Institute Level** as part of a student team.
- Serving as **Operations Head at Ek Prayas, KIET**, managing operational activities and handling the club's technical work and requirements.
- Qualified for the **Second Round of GDG Recruitment** at KIET.
